

How to Download & Install Elements Pro

Before You Download & Install Elements Pro

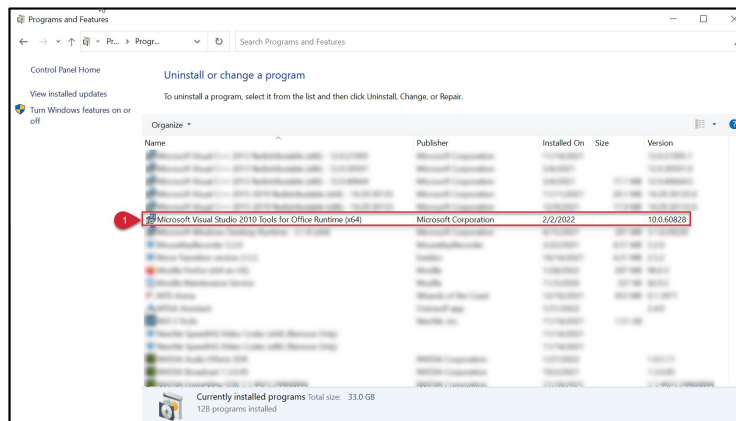

Review the [Full System Requirements](#) for the software. After that:

1. Make Sure Visual Studio Tools for Office (VSTO) is Installed
2. Determine whether you have a 32-bit or 64-bit Operating System
3. Close Word and PowerPoint.

Is Visual Studio for Office Installed

1. Open **Control Panel** in Windows
2. Select **Uninstall a program**

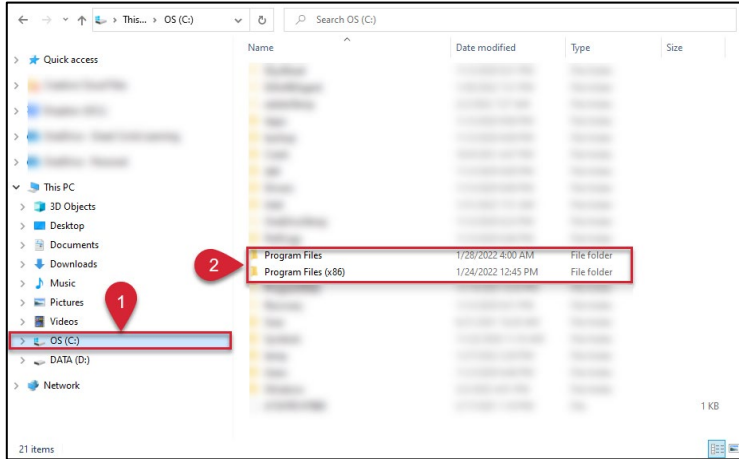

Look for Microsoft Visual Studio Tools

1. Check for Microsoft Visual Studio 2010 Tools for Office
2. If you have it, please continue to the next step
3. If not, please install VSTO at Microsoft with this [link](#).

The install will fail if Microsoft Visual Studio Tools for Office is not installed

How to Download & Install Elements Pro

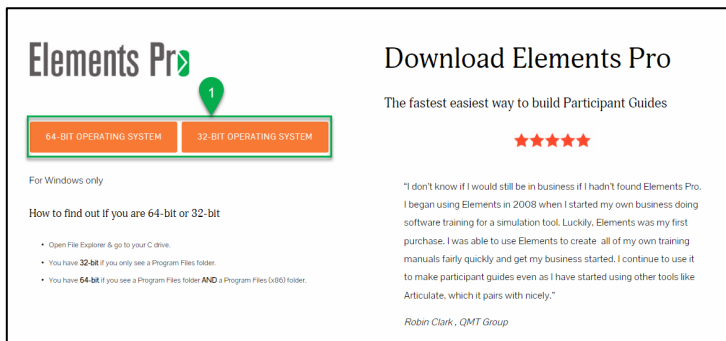

32-bit or 64-bit Operating System

1. In Windows Explorer on your computer, go to your C drive.
2. Look for Program Files
 - You have a 32-bit Operating System if you only see a folder named Program Files.
 - You have a 64-bit Operating System if you see a folder named Program Files and a folder named Program Files (x86).

Download Elements Pro

1. Make sure to close Microsoft Word & PowerPoint
2. Download Elements Pro from the [Great Circle Learning website](#)

Select 32-bit or 64-bit

1. Click either 32-bit or 64-bit button to download the correct version of Elements Pro for your system

 Update Software

SUBMIT

After you click Submit

1. Please do not run the install over the internet
2. Use the download link to save the install file to your computer
3. Check to make sure you have Microsoft Visual Studio 2010 Tools for Office Runtime
 1. Go to Control Panel > Programs > Programs and Features
 2. Scroll down the list of installed programs to see if you have Microsoft Visual Studio 2010 Tools for Office Runtime.
 1. If YES, continue to Step 4
 2. If NO, use this link to download and install this prerequisite Microsoft software
4. Close Word and run the install — full system admin privileges are required, so you might need help from your IT person
5. After installing, open Word (as the user) & click on the new Elements Pro tab along the top of your screen
6. Click any button on the Elements Pro ribbon
7. Follow the prompts to finish the setup in Word

To start using Elements Pro

- Click the "New" button from the Start group on the ribbon
- Access the Elements Pro Quick Start Guide & Tutorials under the Help tab on this website.

Complete the Download Form

1. Fill the fields on the download form
2. Click Submit

Note Reminder instructions are on the right-hand side of the web page

Elements Pro
